Hello my name is Charlie Debach and I've been doing 4-h for 6 years now, I thought I could express my ideas about what we can do with slaughterhouse and try to get them out there more to see you what other people think, so anyways first thing I thought that maybe we could the state could hold McKinley meats off for another year because the 4-H auction is happening this fall and if you people close it down we won't have slaughterhouse that is USDA certified though I heard from a good friend that Rocket Ranch will become USDA certified for cattle and pigs by next summer so if you keep McKinley this fall and then give it away then next fall the Rocket Ranch will be ready to slaughter wo we don't have to worry about anything, or we could shut down McKinley meats now and give it the those other guys but to help Rocket Ranch become Certified by fall time before Septemeber the state could give Rocket Ranch a little money like 5% and they can pay it back in far future or the state can donate workers to help get the Slaughter house done! though one question way are shutting down small state funded business's that will not make diffrence at all in our debt that is 4 Billion dollars why can't we cut the welfare and make people pay for themselves and find job or temporarily do it cut so they still have little money but not much, or when my dad was a kid he said something like this happened when I was younger and to save the United States money the president got on T.v and told every business, house, store, school to cut the tempature to 60 degrees, why can't we do that now that one simple act would save the state so much money! Here's another idea, so according to my fellow partners in 4-h and friends the people that will be taking over McKinley meats will still be USDA certified though they don't want to slaughter 4-h animals, now if that is true co pellet true nothing else those men need to get head out of their butt because it is a slaughterhouse that KILLS AND SLAUGHTERS ALL animals not every farm animal except 4-h animals, that's just stupid, if that is true and those guys are doing that then why don't we make them Slaughter 4-h animals for just one more year because next year Rocket Ranch will be ready. Tank you for you're wonderful Time And I hope that the 4-H auction can still happen this year, because lots of kids and parents have put valuable time and LOTS OF MONEY into their animals and it would be shame to shut slaughter house because I don't you realize how many people it will effect.
