This Final Finding and Decision (FFD) complements and updates the Preliminary Decision (PD) for ADL 421617, issued on July 11, 2023.

I. Recommended Action

On July 11, 2023, the State of Alaska (State), Department of Natural Resources (DNR), Division of Mining, Land and Water (DMLW), Land Conveyance Section (LCS) proposed to voluntarily reconvey to the United States of America, containing 40.00 acres of wrongfully conveyed state land described as U.S. Survey No. 14042 and is located within Section 22, Township 18 North, Range 11 East, Copper River Meridian in the Fairbanks Recording District. II. Authority

This reconveyance is being adjudicated pursuant to Alaska Statute (AS) *38.05.020 Authority and Duties of the Commissioner*, AS *38.05.035 Power and Duties of the Director*, AS *38.05.830 Land Disposal in the Unorganized Borough*, 11 Alaska Administrative Code (AAC) *67.930 Purpose and Procedure*, and the settlement authority of the Attorney General in accordance with the Stipulated Procedures for Implementation of Order, *Aguilar v. VI. Modifications to Decision and Stipulations

It is in the best interest of the State to reconvey the land to the United States subject to the reservations, exceptions, and restrictions, as stated below. This will allow the heirs to the Native Allottee to obtain title to the land while the State will retain public access on the property as prescribed by statute and thus avoid title recovery litigation by the federal government. The State may proceed with the reconveyance of U.S. Survey No. 14042, to the United States of America subject to the following easements, reservations, exceptions, and restrictive covenants:

Subject to:

- a) Valid existing rights, if any.

The Division of Oil and Gas and DMLW have determined that it is not in the State's best interest to retain the mineral estate. The mineral estate will not be retained pursuant to *AS 38.05.035(e) Powers and Duties of the Director*. The State will receive an acreage credit for the lands.

The following condition will be contained in the conveyance document and pertains to this reconveyance. The following interest will merge with the title once the land is conveyed back to the United States:

The Patent contains the following reservations:

- A right-of-way thereon for ditches or canals constructed by the authority of the United States;
- A right-of-way for the construction of railroads, telegraph and telephone lines, in accordance with section 1 of the Act of March 12, 1914 (38 Stat. 305, 48 U.S.C. Sec. 305); and
- Reserving unto the United States that certain pipeline and access road and all appurtenances thereto, constructed by the United States, though, over or upon the land herein described and the right of the United States, its officers, agents or employees to maintain, operate, repair or improve the same so long a needed or used for or by the United States.

Recommendation and approval of the Final Finding and Decision follow.

On October 3, 2008, BLM determined Native Allotment application FF014425, Parcel B, valid and the State received a request for reconveyance on February 17, 2009. BLM surveyed the 40.00-acre parcel and issued plat U.S. Survey No. 14042 in 2022.

IX. Planning, Classification, and Mineral Orders

1. *Planning:* The subject parcel is located within the Upper Tanana Region of the Eastern Tanana Area Plan adopted on August 28, 2015, in unit U-21. The plan designates the subject parcel as Forestry and Habitat. These designations convert to classifications of Forest Land and Wildlife Habitat Land.

XII. Reservation of the Mineral Estate

The Division of Oil and Gas (DOG) and DMLW have determined that it is not in the State's best interest to retain the mineral estate. The mineral estate will not be retained pursuant to *AS 38.05.035(e) Powers and Duties of the Director*. The State will receive an acreage credit for the lands.

XIII. Hazardous Materials and Potential Contaminants

The Department of the Interior, BLM, is expected to inspect the parcel and familiarize itself with the condition and quality of the land. The State makes no representations and no warranties, express or implied, concerning the existence or absence of any hazardous substances, hazardous wastes, contaminants, or pollutants on the land here proposed for reconveyance. XVI. Submittal of Public Comments

See Attachment B: Public Notice for specific dates and conditions.

Pursuant to AS 38.05.945 Notice, LCS is issuing public notice inviting comment on this Preliminary Decision.

In accordance with AS 38.05.946(a) Hearings, a municipality or corporation entitled to receive notice under AS 38.05.945(c) may hold a hearing within 30 days after receipt of the notice. If a hearing is held, the Commissioner (or representative) shall attend the hearing. The Commissioner has discretion whether or not to hold a public hearing.

LCS will consider all timely, written comments received. If analysis of such comments indicates the need for significant changes to the Preliminary Decision, additional public notice for the affected lands will be given. Reducing the amount of land offered and making minor changes to any of the proposals will not be considered significant changes requiring additional public notice.

If the proposal is approved and no significant change is required, the Preliminary Decision, including any deletions, minor changes, and summary of comments and LCS responses will be issued as a subsequent Final Finding and Decision, without further notice.

Only persons from whom DNR DMLW LCS receives timely, written comment during the identified comment period will be eligible to file an appeal of the Final Finding and Decision. Upon approval and issuance of a Final Finding and Decision, a copy of the decision will be made available online at <http://landsales.alaska.gov/> or <https://aws.state.ak.us/OnlinePublicNotices/> and sent with an explanation of the appeal process to any party who provides timely written comment.

DEADLINE TO SUBMIT WRITTEN COMMENT IS 3:00 PM, TUESDAY, AUGUST 15, 2023

XVII. Alternatives

The following alternatives were considered:

Alternative 1: Reconvey

Reconvey the land to the United States subject to the reservations, exceptions, and restrictions as stipulated in **XI. Access, Including Access To and Along Public or Navigable Water, Easements and Setbacks**. This will allow the Native Allottee to obtain title to the land while the State will retain public access on the property as prescribed by statute and thus avoid title recovery litigation by the federal government. Therefore, it is in the best interest of the State to reconvey the parcel as proposed in this decision, and this is the preferred alternative.

Alternative 2: Retain

Retain ownership and withhold reconveyance. DNR currently does not have a persuasive reason to pursue this option. This alternative may lead to title recovery litigation brought by the United States on behalf of the Native Allottee, thus subjecting the State to an uncertain expenditure of resources and an uncertain result of litigation. This alternative is not preferred.

In accordance with the Stipulated Procedures for Implementation of Order in Aguilar, BLM reviewed and determined Mr. Henry's Native Allotment application to be valid on October 3, 2008. Based on documentation within BLM's case file and subsequent comments received from agency review, LCS has found no legal reason for denying this reconveyance subject to public notice and a final decision.

For the reasons outlined above, Alternative 1 is the preferred alternative.

Recommendation follows.

Preliminary Decision

ADL 421617

Page 7 of 7

XVIII. Recommendation

This Preliminary Decision for the proposed reconveyance of state lands described throughout this document and its attachments may be within the State’s best interest. Reconveyance under the conditions in Alternative 1 is preferable to title recovery litigation. The State’s reconveyance will allow the BLM to transfer title of the land to the Native Allottee and will eliminate any further title recovery action. As represented by the preferred alternative, the PD described above has been reviewed and considered. I find that the recommended action may be in the best interest of the State and that it is hereby approved to proceed to public notice.

This is a Preliminary Decision, and analysis of subsequent public review may result in changes to the preferred alternative of the proposed reconveyance of state lands. If the decision is approved, a Final Finding and Decision may be issued.
