**Notice:** This purpose of this form to allow the Division of Mining, Land & Water (DMLW) to collect information about vessels of concern that may be defined as abandoned and derelict vessels (ADV). DMLW’s ADV Program serves as the Division’s statewide information source for ADVs across the state. Information collected through this form will be reviewed to determine vessel status, land ownership at the vessel’s location, and whether the vessel has already been documented by DMLW. This information will then be used to update existing cases, open new cases, and notify other interested government agencies of the vessel(s).

To help reduced the amount of duplicate reporting please review the DMLW’s ADV mapping system (<http://dnr.alaska.gov/mlw/sail/adv/map/>) to determine whether the vessel you would like to report has already been documented. You may also consider filing your report in the online mapping system.

**Advisement:** Derelict vessels pose many hazards to people. Please remain a safe distance from the vessel, vessel boarding is discouraged.
